

FIT GLOVE, PALM FIT & TOP FIT GLOVE

Lint free, elastic, respiratory active

These durable, high-comfort cleanroom gloves protect dust-sensitive products from sweat and particulate contamination, are highly elastic and have an excellent fit. All gloves in this series are completely lint-free and consist of a knit of 100% nylon. They are reusable (washable up to 30 ° C with neutral detergent). TOP FIT & PALM FIT are coated with urethane on the fingertips or in the area of the palm of the hand and are thus extremely resistant to abrasion.

FIT GLOVE

- Because of no seams, very good tact
- Best fit due to high elasticity of the fabric
