

Latex Cleanroom Glove CLD Clean Seal®

Cleanroom class 100 / ISO 5

Product description:

Clean Seal® Latex CR glove is a high end product with low particle and extractable levels. It is a glove meant for use with products that are susceptible to particle and chemical contamination.

These gloves exhibit very low allergen levels (extractable protein and residual chemicals) due to the proprietary washing process that the glove undergoes. The end-result → a very clean technologically advanced glove that is kind to the hands!

This glove is commonly used in applications requiring a clean glove such as wafer fabrication, disk drives, semiconductor, biotechnology and electronics device manufacturing, among others.

MATERIAL: 100% NR Latex, textured

Without plasticizers, contain no phthalates esters, silicone oil and amide.

Sizes / article numbers:

Size	Length (mm)	Palm (width)	Palm thickness (mm)	Article-no.:
S	min. 290	85 +/- 5 mm	0,10 +/- 0,02	HSLACL1000S
M	min. 290	95 +/- 5 mm		HSLACL1000M
L	min. 290	105 +/- 5 mm		HSLACL1000L
XL	min. 290	115 +/- 5 mm		HSLACL1000XL

Packaging unit (PU): 1000 pcs (10 bags a` 100 pcs)

Physical properties (ASTM D3578 / D412):

Tensile strength: > 14 MPa

Elongation at break: > 700%

Cleanliness of gloves (IEST-RP-CC005.3):

Particle counts (0,5 – 20µm)	< 1200 (count per cm ²)
------------------------------	-------------------------------------

Ionic contents (µg/cm ²)	Specification (µg/cm ²)
Chloride	< 2,00
Nitrite	< 0,03
Bromide	< 0,50
Fluoride	< 0,03
Phosphate	< 0,03
Sulphate	< 1,00
Nitrate	< 1,00
Non volatile residue (DI water)	< 3,00

Storage:

Store in cool dry place away from direct sunlight or exposed to ozone releasing equipment. Whenever possible, please store in original unopened packaging.

Delivery term: EXW Weissach im Tal
Payment term: within 10 days ./. 2% discount or 30 days net
We reserve the right to change the payment term in:
payment in advance.
Delivery time: on stock
