

RUBY STICK

Cleaning swabs

Material tip: model T51: PU foam
model T71: Olefin Resin (EVA)
Material handle: PP

The Ruby Stick cleaning swabs are ideal for cleaning high-tech equipment such as computers, inkjet printers, electronic devices and for degreasing lenses. Further application they find in cleaning of optical glasses, such as loupes and microscopes. They leave no residue such as fibers, dust and lint. Hard to reach places and small spaces can be cleaned with them very well.

The white, angled head is made of a very absorbent PU-foam, which allows an excellent fluid absorption. He also offers a good resistance to heat and corrosion by chemicals.
