

## Glove cleaner for quick and easy glove cleaning

This cleaning roller can be a time-saving helper wherever cleaned gloves can be reused after working with it.

The gloves can be cleaned while wearing. The glove simply has to be pushed or pulled onto the roller and the sticky roll does its job. Particles, dirt, dust etc. stick to the roller, the glove is clean and ready to use again.

If the top layer of the cleaning roller is dirty, it is removed and the next glove can be cleaned.

### Benefits:

- Stainless steel body offers great durability
