

CLEANING ROLLER WITH TACKY PAD SILICONE-FREE

This dust removal roller cleans loose, dry contamination from any flat surface. Unwanted particles as small as one micron are readily removed from the substrate. Cleaning is completely dry, without chemicals or abrasion.

Handling of the roller is very easy. Gently pass the roller over the flat surface that has to be cleaned. The roller's polymer surface lifts particulate matter from the substrate. No pressure is required. For cleaning the roller, pass it over the adhesive pad. The pad's surface energy is higher than that of the rollers, so the particulate is transferred, leaving the roller clean and ensuring no cross-contamination. Each sheet of the tacky pad can absorb many passes of the roller before it is discarded. When the top layer is dirty, it has to be removed and a clean layer is on top.

Possible applications: Printed circuit boards, surface mount technology, screen printing, glass manufacture, LCD, photo mounting, light boxes, flat screen, medical packaging and many other industries where particulate contamination is a problem.

Description:	Size:	PU:	Article-no.:
SET = Roller, tacky pad, pad holder:			
Metal handle, 30° curved	12"	1 Set	RRSF12-Y-SET-FB
Metal handle, straight	12"	1 Set	RRSF12-Y-SET-FA
Metal handle, 30° curved	6"	1 Set	RRSF6-Y-SET-FB
Metal handle, straight	6"	1 Set	RRSF6-Y-SET-FA
CLEANING ROLLER:			
Metal handle, 30° curved	12"	1 pc.	RRSF12-Y-FB
Metal handle, straight	12"	1 pc.	RRSF12-Y-FA
Metal handle, 30° curved	6"	1 pc.	RRSF6-Y-FB
Metal handle, straight	6"	1 pc.	RRSF6-Y-FA
Tacky pad for both sizes		50 sheets	RRSFPAD
Pad holder		1 pc.	RRPCRPH
